15-003.02C Refusal to Renew: See 175 NAC 15-008.01 and 15-008.02 for grounds and procedures for refusal to renew a license.

15-003.03 Reinstatement from Lapsed Status: A respite care service requesting reinstatement of its lapsed license must submit to the Department an application for reinstatement and pay the required licensure fee specified in 175 NAC 15-004.08. The application must conform to the requirements specified in 175 NAC 15-003.02.

1. The length of time that has transpired from the date the license was placed on lapsed status to the date of the reinstatement application; and

2. Whether the service has provided care from the site under a license that is different than that of the lapsed license.

15-003.03B When the Department decides that a reinstatement inspection is warranted, it must conduct an inspection in accordance with 175 NAC 15-005.

15-004.02 License Not Transferable: A license is issued only for the premises and persons named in the application and is not transferable or assignable. Change of ownership (sale, whether of stock, title, or assets, lease, discontinuance of operations) or premises terminates the license. If there is a change of ownership and the respite care service remains on the same premises, the inspection in 175 NAC 15-005 is not required. If a respite care service changes premises, it must pass the inspection specified in 175 NAC 15-005.
15-004.03  Occupancy: In free standing respite care sites, a licensee must not serve more clients at one time than the maximum occupancy for which the respite care service is licensed.

15-004.04  Change of Ownership or Location: The licensee must notify the Department in writing within five working days of the event if or when a respite care service is sold, leased, discontinued or moved to a new location.

15-004.05  Notifications: An applicant or licensee must notify the Department:

1. At least 30 working days prior to the date it wishes to increase the number of clients which the respite care service is licensed;
2. To request a single license document;
3. To request simultaneous facility or service licensure inspections for all types of licensure held or sought; or
4. When there is a change in the building or the usage of the building that serves as a free standing respite care services site.

15-004.06  Information Available to Public: The licensee must make available for public inspection upon request licenses, license record information, and inspection reports. This information may be displayed on the licensed premises.

15-004.07  Accreditation or Certification: The Department must deem applicants or licensees in compliance with 175 NAC 15-006 based on their accreditation by the Commission on Accreditation of Rehabilitation Facilities respite care services.

15-004.07A  The applicant or licensee must request the Department to deem its respite care service in compliance with 175 NAC 15-006 based upon its accreditation. The request must be:
1. In writing;
2. Submitted within 30 days of receipt of a report granting accreditation; and
3. Accompanied by a copy of the accreditation report.

15-004.07B  Upon receipt of the request, the Department must deem the respite care service in compliance with 175 NAC 15-006 and must provide written notification of its decision to the respite care service within ten working days of the receipt of the request.

15-004.07C  The licensee must maintain the accreditation on which its license was issued. If the accreditation has been sanctioned, modified, terminated or withdrawn, the licensee must notify the Department within 15 days of receipt of notification of the action. After giving the notice, the service may continue to operate unless the Department determines that the service no longer meets the requirements for licensure under the Health Care Facility Licensure Act.

15-004.08  Fees: The licensee must pay fees for licensure and services as set forth below:

1. Initial and Renewal Licensure Fees for Respite Care Service:
a. Programs that provide respite care services through volunteers $ 50
b. Programs with license capacity of 8-16 $ 50
c. Programs with license capacity of 17-50 $100
d. Programs with license capacity of 51 and up $150

2. Duplicate license: $ 10

3. Refunds for denied applications:
   a. If the Department did not perform an inspection, it must refund the license fee except for an administrative fee of $25.
   b. If the Department performed an inspection, the fee is not refunded.

15-005 INSPECTIONS: To determine compliance with operational, care and physical plant standards, the Department inspects the respite care services prior to and following licensure. The Department determines compliance through on-site inspections.

15-005.01 Initial Inspection: The department must conduct an initial on-site inspection to determine compliance with 175 NAC 15-006 and 15-007. This inspection must be conducted within 30 working days, or later when requested by the applicant, of receipt of a completed application for an initial license. The Department must provide a copy of the inspection report to the respite care service within ten working days after completion of an inspection.

15-005.02 Results of Initial Inspection

15-005.02A When the Department finds that the applicant fully complies with the requirements of 175 NAC 15-006 and 15-007, the Department must issue a license.

15-005.02B When the Department finds that the applicant has complied substantially but has failed to comply fully with the requirements of 175 NAC 15-006 and 15-007 and the failure(s) would not pose an imminent danger of death or physical harm to the client, the Department may issue a provisional license. The provisional license:

1. Is valid for a period of up to one year
2. Is not renewable; and
3. May be converted to a regular license upon a showing that the respite care service fully complies with the requirements for licensure.

15-005.02C When the Department finds that the applicant has one or more violations that create no imminent danger of death or serious physical harm and no direct or immediate adverse relationship to the health, safety or security of the clients in the respite care, the Department may send a letter to the service requesting a statement of compliance. The letter must include:
1. A description of each violation;
2. A request that the applicant submit a statement of compliance within ten working days; and
3. A notice that the Department may take further steps if the statement of compliance is not submitted.

15-005.02D The Statement of Compliance: The statement of compliance must indicate any steps that have been or will be taken to correct each violation and the estimated time necessary to correct each violation. Based on the statement of compliance, the department must take one of the following actions:

1. If the applicant submits a statement of compliance that indicates a good faith effort to correct the violations, the Department must issue a regular license or a provisional license; or
2. If the applicant fails to submit and implement a statement of compliance that indicates a good faith effort to correct the violations, the Department may deny the license.

15-005.02E When the Department finds that the applicant fails to meet the requirements of 175 NAC 15-006 and 15-007 and the failure(s) would create an imminent danger of death or serious physical harm, the Department must deny the license.

15-005-03 Timing of Compliance Inspection: The Department may conduct an on-site inspection at any time it deems necessary.

15-005.03A Random Selection: Each year the Department may conduct an inspection of up to 25% of the respite care services based on a random selection of licensed respite care services.

15-005.03B Focused Selection: The department may conduct an inspection of a respite care services when the Department is informed of one or more of the following:

1. An occurrence resulting in client death or serious physical harm to clients;
2. An occurrence resulting in imminent danger to or the possibility of death or serious physical harm to clients;
3. An accident or natural disaster resulting in damage to the physical plant and having a direct or immediate adverse effect on the health, safety, and security of clients;
4. The passage of five years without an inspection;
5. A complaint alleging violation of the Health Care Facility Licensure Act or 175 NAC 15;
6. Complaints that, because of their number, frequency, and type, raise concerns about the maintenance, operation, and management of the respite care services;
7. Financial instability of the licensee or of the licensee’s parent company;
8. Outbreaks or recurrent incidents of physical health problems such as dehydration, pressure sores, or other illnesses;
9. Change of services, management, or ownership;
10. Change of the status of the accreditation on which licensure is based as provided in 175 NAC 15-004.07; and
11. Any other event that raises concerns about the maintenance, operation, and management of the respite care services.

15-005.04 Results of Compliance Inspections

15-005.04A When the inspection reveals violations that create imminent danger of death or serious physical harm or has direct or immediate adverse relationship to the health, safety or security of the persons receiving respite care services, the Department must review the inspection findings within 20 working days after the inspection. If the evidence supports the findings, the Department must impose discipline in accordance with 175 NAC 15-008.03.

15-005.04B When the inspection reveals one or more violations that create no imminent danger of death or serious physical harm and no direct or immediate adverse relationship to the health, safety or security of the persons receiving respite care services, the Department may request a statement of compliance from the respite care service. The statement of compliance must indicate any steps that have been or will be taken to correct each violation and the period of time estimated to be necessary to correct each violation. Based on the statement of compliance, the Department will take one of the following actions:

1. If the service submits and implements a statement of compliance that indicates a good faith effort to correct the violations, the department must not take any disciplinary action against the license;
2. If the respite care fails to submit and implement a statement of compliance, the Department must initiate disciplinary action against the respite care service license, in accordance with 175 NAC 15-008; or
3. In making a determination to accept a statement of compliance or initiate or not initiate disciplinary action against the license, the Department may conduct a re-inspection within 90 days of the first inspection, or sooner as requested by the licensee.

15-005.05 Re-inspections

15-005.05A The Department may conduct re-inspections to determine if a respite care service fully complies with the requirements of 175 NAC 15-006 and 15-007. The reinspection:

1. May occur after having issued a provisional license; having received a statement of compliance; or having imposed disciplinary action; and
2. Must occur within 90 days of the first inspection, or sooner as requested by the licensee.

15-005.05B Following a reinspection, the Department may:

1. Convert a provisional license to a regular license;
2. Affirm that the provisional license is to remain effective; or
3. Modify a disciplinary action.

15-005.05C To modify a disciplinary action, the Department must follow the procedures in 175 NAC 15-008.02

15-006 STANDARDS OF OPERATION AND CARE: To provide adequate protection to clients and be in compliance with state statutes, all respite care services licensed by the Department must meet the following:

15-006.01 Licensee: The licensee must determine, implement and monitor policies to assure that the service is administered and managed appropriately. The licensee’s responsibilities include:

1. Maintain the respite care service’s compliance with all applicable state statutes and relevant rules and regulations;
